

QUALITY AND DEPENDABILITY

Flora Digital Printing Systems is second to none: the company is committed to developing and providing the optimum, most innovative, high-quality and reliable digital printers to its valued loyal customers. The premium craftsmanship, deluxe components, superior used-materials, high-standard assembly and compliance to ISO 9001 guidelines give the company and its products a distinguished worldwide reputation.

BEST RETURN ON INVESTMENT

Our goal doesn't stop at selling a printer only; on the contrary, our vision dictates that we accompany clients all the way and cater to all their needs when using their purchased printer. Thus, the services we provide extend to training users and familiarizing them with all the aspects of manipulating their machine. In that respect, we are committed to offering door-to-door free installation and adjustment of the printer and free professional training for those who will operate it. Moreover, during the first year of operation, the buyer will benefit from a free upgrade support and on-site maintenance visits. Our maintenance team formed by the best technicians is there to ensure the quickest possible response and provide a prompt solution to any arising problem. Again, we provide the best supply of accessories and related consumables at highly competitive prices.

Customer Care:

Flora Digital Printing Systems is a leader on the market with its highest printing speeds, technologically-advanced designs and supreme manufacturing quality at a reasonably competitive acquisition costs. As a customer, one has only to compare technologies and benefits and conclude why today a Flora Digital Printer is nothing but the most optimal Asian-built equipment on the market.
